Headquarters.

APPROVED FOR RELEASE
DATE: AUG 2004IMMEDIATE

D. 0541

July 13th, 1944.

Following from 7404.

CREEP

- As: 46.*
- A. 7408 is here and has met APOLLO.
 - B. We all strongly urge you should step up volume of CREEP material in order take maximum advantage of 7408's transport facilities which are running far below capacity.
 - C. 7408's boats can easily carry anything you can send by bag.
 - D. Consider you can substantially increase volume of CREEP by British bag without attracting undue attention of Swedish airport authorities. For example this morning only two CREEP bags arrived although five repeat five Mosquitos flew.
 - E. Recommend you consider possibilities of 7408's boats being used for contacting craft coming direct from U.K.
